Linda Wang

yifan_wang@hks.harvard.edu | Boston, MA

EDUCATION

Harvard Kennedy School **Cambridge, MA**
Master's in Public Policy *Expected May 2028*

- Concentration: Technology Policy

Vanderbilt University **Nashville, TN**
B.S. in Economics and Sociology (Highest Honors); Minor in Data Science and Business *May 2026*

- **GPA:** 3.99 / 4.00 | **Honors:** Dean's List (2022 - 2026) | **Magna Cum Laude**
- **Relevant Coursework:** Applied Programming w/ Python; Microeconomics; Macroeconomics; Econometric Methods; Applied Machine Learning; Data Science

HONORS THESIS

Taking Leave, Taking Risks: Gender and Workplace Stigma in Parental Leave Evaluations **Nashville, TN**
Research Lead *Sept 2025 – Present*

- Designed a randomized 2×2 factorial vignette experiment with 200 U.S. respondents to estimate effects of employee gender and parental leave duration on workplace stigma
- Cleaned survey data, constructed composite indices, and estimated linear regression and interaction models in R; identified significantly higher stigma toward male leave-takers; discussed implications for future policy directions

RESEARCH EXPERIENCE

Vanderbilt Laboratory for Research on Conflict and Collective Action **Nashville, TN**
Research Assistant *Sept 2025 – May 2026*

- Analyzed the geopolitical drivers and policy consequences of China–U.S. decoupling in key strategic industries (advanced semiconductors, pharmaceutical manufacturing, and rare earth processing), identifying how shifting supply chains and regulatory regimes influence regional stability and U.S.–China–Taiwan relations
- Reviewed developments in cross-strait relations, including Taiwan's defense posture, anti-secession legal frameworks, and maritime security issues, to support research on regional stability
- Supported a separate political-violence research stream on Bolivia by reviewing sources and coding reported fatalities to improve consistency in research records

Nashville Community Power Lab **Nashville, TN**
Research Assistant *Sept 2024 – Sept 2026*

- Analyzed the relationship between general & institutional trust and self-perceived health using General Social Survey data; conducted literature review and regression analysis
- Partnered with North Nashville to co-develop an intergenerational well-being initiative for an underserved community, using community-engaged research to identify barriers and design programs that strengthen long-term resilience

China Association of Circular Economy **Beijing, CN**
Research Analyst Intern *Jul 2024 – Aug 2024*

- Performed cross-national policy analysis on plastic bans and recycling regulations across 30+ countries of interest; co-authored a paper which assessed the effectiveness of "bamboo as a substitute for plastic"; provided policy suggestions on integrating bamboo into national green development strategies to reduce plastic reliance
- Built a multi-criteria evaluation model for industrial solid-waste recycling technologies using Analytic Hierarchy Process, integrating resource efficiency, environmental impact, economic feasibility, and social benefit indicator; delivered policy recommendations to Hubei provincial government to improve regulatory frameworks

ACADEMIC PRESENTATIONS

- Community-Engaged Research on Intergenerational Well-being. Vanderbilt University Population and Public Health Colloquium, 2025.
- Undergraduate Honors Research Showcase. Vanderbilt University, 2026

PROFESSIONAL EXPERIENCE

TikTok (Bytedance) **Beijing, CN**
Summer Business Analyst Intern (Global Monetization Product and Technology) *June 2026 – Aug 2026*

- Built performance dashboards and vibe-coded reusable reporting workflows; developed scenario analyses for quarterly targets and incentives; conducted cross-market performance reviews

NielsenIQ **Beijing, CN**
Consumer Insights Intern *Apr 2026 – June 2026*

- Analyzed survey data from consumers, using statistical testing and demographic segmentation to investigate consumer preferences

Detecon Consulting **Beijing, CN**
Summer Consulting Analyst *May 2025 – Aug 2025*

- Led market analysis on passenger and new energy vehicles, identifying 14 key market trends across China (e.g. AI-driven intelligent cockpit); distilled insights into a 54-page deck to inform clients' China market expansion

SKILLS & INTERESTS

Languages: English (Native), Chinese (Native), Spanish (Conversational)
